Home Learning

At Sharples we believe that home learning is incredibly important as it reinforces and extends the learning which takes place during lessons. Investing time and effort into the completion of home learning also helps our students to develop the skills of self-discipline and motivation which are key to achieving success in both learning and life.

All students at Sharples are given access to the Student Portal which allows students to organise and track their home learning tasks online. All parents/carers will be able to view set home learning tasks through 'MyChildAtSchool' and keep track of your child's home learning using your mobile phone or other electronic device.

I will look forward to working in partnership with you over the next academic year.

Yours faithfully,

Ms. A. Webster
Headteacher

Target success in all lessons

Any student who does not meet these expectations will be placed in a detention with their Year Coordinator. 'MyChildAtSchool' can be accessed through the web browser or by downloading the mobile app (iOS and Android).

Sharples School recognises the importance of parental engagement, especially when it comes to home learning. Therefore, 'MyChildAtSchool' allows you to track and support your child with their Home Learning tasks.

Additionally, MCAS facilitates secure booking and online payment for trips, dinner money and the MCAS parental consent feature which enables you to give/revoke your consent as required, and has a feature to allow parents/carers to inform the school of changes to your key contact details.

The system is fully GDPR compliant and parents/carers will be invited to set up their secure account, and when downloading the app, you can add additional security including biometric authentication and a PIN for ease of use.

Summary of the MyChildAtSchool platform

- MyChildAtSchool.com enables parents to access their child's information through a portal, either browser or App, promoting communication between both schools and parents, and parents and their children
- All the data is in real time so a parent can instantly see whether his/her child is in school now

PRIVACY NOTICE

for parents/carers

Under data protection law, individuals have a right to be informed about how the school uses any personal data that we hold about them. We comply with this right by providing 'privacy notices' (sometimes called 'fair processing notices') to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about **pupils**.

We, Sharple's School, Hill Cot Road, Astley Bridge, Bolton, BL1 8SN are the 'data controller' for the purposes of data protection law.

Our Data Protection Officer is Caroline Molyneux (see 'Contact us' below).

The personal data we hold

Personal data that we may collect, use, store and share (when appropriate) about pupils includes, but is not restricted to:

- Contact details, contact preferences, date of birth, identification documents
- Results of internal assessments and externally set tests
- Pupil and curricular records
- Characteristics, such as ethnic background, eligibility for free school meals, or special educational needs
- Exclusion information
- Details of any medical conditions, including physical and mental health
- Attendance information
- Safeguarding information
- Details of any support received, including care packages, plans and support providers
- Photographs
- CCTV images captured in school

We may also hold data about pupils that we have received from other organisations, including other schools, local authorities and the Department for Education.

Why we use this data

We use this data to:

- Support pupil learning
- Monitor and report on pupil progress
- Provide appropriate pastoral care
- Protect pupil welfare
- Assess the quality of our services
- Administer admissions waiting lists
- Carry out research
- Comply with the law regarding data sharing

Our legal basis for using this data

We only collect and use pupils' personal data when the law allows us to. Most commonly, we process it where:

- We need to comply with a legal obligation
- We need it to perform an official task in the public interest

Less commonly, we may also process pupils' personal data in situations where:

- We have obtained consent to use it in a certain way
- We need to protect the individual's vital interests (or someone else's interests)

Where we have obtained consent to use pupils' personal data, this consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn.

Some of the reasons listed above for collecting and using pupils' personal data overlap, and there may be several grounds which justify our use of this data.

Collecting this information

While the majority of information we collect about pupils is mandatory, there is some information that can be provided voluntarily.

Whenever we seek to collect information from you or your child, we make it clear whether providing it is mandatory or optional. If it is mandatory, we will explain the possible consequences of not complying.

How we store this data

We keep personal information about pupils while they are attending our school. We may also keep it beyond their attendance at our school if this is necessary in order to comply with our legal obligations. Our Record Management Retention policy sets out how long we keep information about pupils.

A copy is available on request from the DPO

National Pupil Database

We are required to provide information about pupils to the Department for Education as part of statutory data collections such as the school census.

Some of this information is then stored in the [National Pupil Database](#) (NPD), which is owned and managed by the Department and provides evidence on school performance to inform research.

The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources including schools, local authorities and exam boards.

The Department for Education may share information from the NPD with other organisations which promote children's education or wellbeing in England. Such organisations must agree to strict terms and conditions about how they will use the data.

For more information, see the Department's web page on [how it collects and shares research data](#). You can also [contact the Department for Education](#) with any further questions about the NPD.

Youth support services

Once our pupils reach the age of 16, we are legally required to pass on certain information about them to Bolton council, as it has legal responsibilities regarding the education or training of 13-19 year-olds.

This information enables it to provide youth support services, post-16 education and training services, and careers advisers.

Parents/carers, or pupils once aged 16 or over, can contact our data protection officer to request that we only pass the individual's name, address and date of birth to Bolton Council.

Transferring data internationally

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

Parents and pupils' rights regarding personal data

Parents also have the right to make a subject access request with respect to any personal data the school holds about them.

If you make a subject access request, and if we do hold information about you or your child, we will:

- Give you a description of it
- Tell you why we are holding and processing it, and how long we will keep it for
- Explain where we got it from, if not from you or your child
- Tell you who it has been, or will be, shared with
- Let you know whether any automated decision-making is being applied to the data, and any consequences of this
