Behaviour

The Behaviour option is accessible from both the Menu Bar and a Widget.

The Widget displays the Behaviour for the last 5 Events. Click on the More button to open the Behaviour page.

It displays the school year showing school days with the student **Behaviour Events**, there is a legend which explains the colour coding. The colours are configurable by the school so may differ from the image. The displayed colour for each day is taken from the highest priority recorded for that day with a **Negative Event** being the highest i.e. any recorded **Negative Event** will result in that day being highlighted in red or the schools chosen colour, even if there are other **Events** that day. The **Pie Chart Summary** displays all **Events**.
